MARKET TRADING POLICY

1. The Market will be held weekly every Saturday in the East Oxford Primary School, Union Street, off the Cowley Rd, Oxford OX4 1JP from 10am to 1pm. The Market's committee reserves the right to make changes to the venue, market day or opening hours with reasonable notice.
2. The aim of the Market is to provide locally produced, good quality seasonal products at reasonable prices. Production methods should have minimal adverse environmental impact and conform to recognised standards.
3. The Market's committee reserves the right to monitor the quality of produce offered for sale by any stallholder. The committee may cancel the stallholder's contract if it feels the quality is significantly sub-standard. No genetically modified produce or goods containing genetically modified ingredients may be sold.
4. Produce sold at the Market must normally be produced within a radius of 30 miles. The Market's committee may at its own discretion make exceptions if produce is not available from local producers. In such cases the county or country of origin must be clearly displayed.
5. The Market supports the principles of organic production and sustainable farming. The market's committee will accept non-organic produce in certain circumstances but will take production methods into account when allocating stalls.
6. Secondary producers should use locally grown ingredients where possible. Stallholders are encouraged to inform customers when products are wholly or principally made from local ingredients.
7. No bought-in produce may be resold without further processing and without prior arrangement with the committee.
8. Stalls should be staffed by at least one person directly involved in or fully knowledgeable about the growing or making of the produce.
9. Stalls should display the name of the stallholder or enterprise and a contact telephone number or address. Where appropriate, certificates (e.g. organic certification) should also be displayed.
10. Groups of small-scale 'non-commercial' producers (e.g. an allotments association) may take a single stall as a collaborative group. However such groups will be treated on the same basis as other stallholders: registration by each producer will be required; all producers must satisfy the legal requirements, all produce must be covered by public liability insurance (eg via the National Market Traders Federation) and standard stall rates will be charged.
11. Stallholders may only sell produce as listed on their contract. Additions to this list may only be made by agreement with the Market's committee and should be negotiated in advance.
12. The Market aims to achieve a balance of a wide range of stalls. When the possibility of different stalls selling the same or similar produce arises, the committee will consult with existing stallholders offering such produce before deciding whether to accept a new applicant.
13. All stallholders must comply with current Trading Standards and Environmental Health requirements.
14. All stallholders must have employee, and public and products liability insurance. Proof of cover must be presented to the Market committee prior to, or at, the first market the stallholder attends.
15. Stalls should be set up in time to start trading when the market opens and should not close prior to the market closing (unless sold out).
16. Stall fees are payable weekly, on the day of the market unless otherwise arranged.
17. Stallholders should give a minimum of two weeks notice if they wish to relinquish their pitch (either occasionally or permanently). Stallholders who fail to turn up for a booked pitch are liable for the full fee.
18. Waste, rubbish etc is not to be left onsite and each stallholder is responsible for the removal of their own waste and rubbish.
19. Each stallholder shall sign a contract accepting the terms of the above policy.
20. The committee reserves the right to ask stallholders to leave the Market if they are in serious breach of the Market policy.
